PROFESSIONAL SUMMARY

Computer Science & Engineering graduate with hands-on experience in Python, Django, Django REST Framework, FastAPI, SQL, PostgreSQL, Git, and GitHub. Built REST APIs with JWT authentication, database integration, product search, and CSV-based product data import. Also experienced in Android development using Kotlin, Jetpack Compose, and Firebase. Strong foundation in data structures, OOP, problem-solving, and software development practices.

EDUCATION

Bachelor of Engineering (B.E.) — Computer Science & Engineering (CSE)

Dr. Sri Sri Sri Shivakumara Mahaswamy College of Engineering, Bengaluru | 2026 | CGPA: 7.75/10

EXPERIENCE

Android Application Development Intern — MindMatrixEd | Bengaluru, India | February 2026

- Developed **Shishu Sneh**, a child healthcare monitoring Android application using Kotlin and Jetpack Compose, implementing vaccination reminders, growth tracking, and feeding schedules.
- Integrated **Firebase Authentication, Firestore, and Realtime Database** for secure user authentication and real-time data management.
- Built a modular Android application with reusable UI components and Material Design principles.

PROJECTS

Rivyou — Product Search REST API | Python • Django • Django REST Framework • PostgreSQL • JWT

- Developed a RESTful Product Search API using Python, Django REST Framework, and PostgreSQL.
- Implemented JWT-based authentication with user registration, login, and protected API endpoints.
- Built product search functionality with relevance-based results and CSV-based product data import.
- Structured the application into modular components for user authentication and product management.

Shishu Sneh — Child Healthcare Monitoring App | Kotlin • Jetpack Compose • Firebase

- Developed an Android application focused on child healthcare monitoring and management.
- Implemented vaccination reminders, growth tracking, and feeding schedules.
- Used Firebase services for authentication and real-time cloud data management.

TECHNICAL SKILLS

Programming Languages: Python, Java, Kotlin, SQL

Web & Backend: Django, Django REST Framework, FastAPI, REST APIs

Frontend: HTML, CSS, JavaScript

Databases: PostgreSQL, SQL, Firebase Firestore, Realtime Database

Development Tools: Git, GitHub, VS Code

Concepts: Object-Oriented Programming, Data Structures, Authentication, API Development, Database Integration, Problem Solving

CERTIFICATIONS & TRAINING

Python Full Stack Development Program — KodNest | 2026 – Present

Training in Python, SQL, Git/GitHub, web development, backend development, and full-stack software development; practicing programming fundamentals, data structures, OOP, problem-solving, and application development through hands-on exercises and projects.

LANGUAGES & HOBBIES

Languages: English, Kannada, Hindi

Hobbies: Coding, learning new technologies, and building software projects
